

# STEM Ambassadors Newsletter

March 2024

## February in Review

We're thrilled to celebrate our hardworking ambassadors who recently brought their talents and passion to volunteer at the MD Science Olympiad and January's U.S. DoE Science Bowl! Their hard work and teamwork continue to inspire us. This month they tabled at various Club Rushevents across our three campuses!

## Upcoming Events

### DataFest 2024

Registration for the 2-year College DataFest 2024 closes

April 1st. Interested students should reach out to Professor Saidi ([rachel.saidi@montgomerycollege.edu](mailto:rachel.saidi@montgomerycollege.edu)) with any questions!

### MCPS Cyber Competition

The Science, Engineering, and Technology Department is requesting for volunteers for this year's Cyber Competition on March 13th. Interested students should contact [grace.chen@montgomerycollege.edu](mailto:grace.chen@montgomerycollege.edu)

### MCPS Mathical

In partnership with MCPS media specialists, our ambassadors will be visiting Title I schools across Montgomery County, sharing STEM activities! Interested students should email [MCSTEMAmbassadors@montgomerycollege.edu](mailto:MCSTEMAmbassadors@montgomerycollege.edu)

## Women's STEM Month Spotlight: Katherine Johnson

This month, we are honored to share the incredible contributions of Katherine Johnson, an African American mathematician whose calculations were paramount in sending the first American to space. Facing challenges on a racial and gender front, Johnson's intelligence and passion helped pave the way for countless women and Black individuals in STEM. Her story reminds us that talent, courage, and creativity make all the difference in shattering glass ceilings!
