MC CYBER LAB
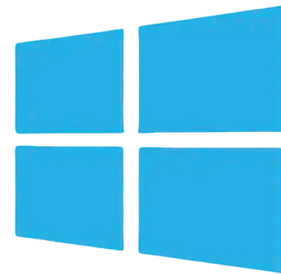

PRESENTS:

Active Directory

PROFESSOR STEPHEN MCGOWAN

MONDAY, MARCH 10TH

3:00 PM

Join us for an engaging session exploring the foundation of modern network management — Active Directory.

Learn how domains, forests, and containers work together to keep organizations secure, and discover how to create and manage objects like users, computers, and printers.

IN PERSON IN THE CYBER LAB, GERMANTOWN HT230

OR FOR A ZOOM INVTE LINK EMAIL:
