What is a Facilities Master Plan?

Goal

- Required by the state every 10 years
- Establish a framework to support the mission and academic vision of the College.
- Address key issues to support enrollment, define space needs, and new facilities initiatives.
- Address the relationship between the College and adjoining business and residential communities.

The FMP will include recommendations and plans for:

- An evaluation of current facilities conditions
- Summarize projected needs
- An overview of the College
- An implementation strategy

**What is the Facility
Master Plan
schedule?**

Process

April 2023

Listening and gathering information from MC constituents and neighboring communities

May 2023

Identification of common themes and overarching concepts

July 2023

Development of the details of the Facilities Master Plan

November 2023

Delivery of the FMP final draft to MC Board of Trustees

Faculty & Staff Engagement One Word...

to describe Montgomery College today

From your own perspective...

1. Diverse
2. Quality Education / Excellence
3. Student Centered
4. Transitioning / Changing
5. Complicated / Bureaucratic

+ Innovative

What a student would say...

1. Complicated / Bureaucratic
2. Caring / Helpful / Supportive
3. Opportunity / Choice
4. Friendly / Welcoming
5. Open / Accessible

+ Quality Education / Excellence

Student Survey – Spaces students would like to see more of on campus

Cafe

Athletics and Recreation

Experimental Technology Space
(Digital Scholarship or AR/VR Lab)

Co-Working Space
(Online Class Participation Area)

Specialized Classroom
(Technology Rich Lab Specific to My Major)

Social Spaces

Student Survey

Campus Hotspots

- **68%** of students take their online courses at home.
- On campus, the library is the hub of study activity. Many comments noted seeking “quiet space” or “lack of quiet space”.
- Students also tended to gravitate towards major/discipline specific buildings or spaces.
- **45%** of students did not socialize or spend time outside of coursework on campus and didn't identify with places/buildings with these activities.
- **New space types:** food/drink, outdoor spaces, and relaxation/respice spaces

Where do you go to take an online course?

Where do you go to socialize with friends?

Community Input

What is the primary way you interact with the College's campuses?

33 Answers

work - Rockville

I am staff on the Rockville campus.

Swim team practice and future student (3 or 4 years)

Take continuing education classes and live near the Rockville campus.

I live near TP/SS

I am an employee of a swim team that rents time at the Rockville and Germantown pools.

Rockville & Germantown - pool facilities.

Rockville Campus - work nearby and often drive by, but rarely go onto campus

Projects w colleagues, emails

I am an employee at the Rockville campus and live near the Germantown campus

I am on RV campus for work 4 days a week.

Rockville. I drive to campus from PG county to teach as a full time faculty member

On the PIC MC Foundation Board. Germantown campus.

work at all three

Professor

Germantown by way of PIC MC Rockville through volunteer events Takoma Park for meetings such as MC Foundation

Customer Service support to non-credit students. Communicate with all sites to include Gaithersburg Business Training Center.

Department Chair - all 3 campuses

How have the communities around the College's campuses changed over time?

Increasing urbanization and traffic

Lived very close to the Rockville Campus. Seems like the MCPS Facility next to the campus is underutilized, any chance of transferring the property?

Lots of traffic near East Campus location.

Need for increased access to recreation and Fitness facilities. Community access to fitness centers;/ outdoor community fitness centers/ tennis/pickle ball

fewer students on campus, seems more online courses

Influx of immigrants. English classes are vital and funding for more support specialist is needed.

The entire county is far more diverse. Students are under more pressures. The pandemic has really flattened social lives in the communities.

There is a fair amount of vacant commercial space near the Rockville campus. Very difficult to walk to cafes/coffee from Rockville without having to walk on 355.

There are a lack of walkable food and coffee options near Germantown and Rockville, Limited hours of cafeterias on campus and sold out vending machines.

The college offers "mobile markets" in partnership with the Capital Area Food Bank to distribute food. We need flow or ability to get traffic in and out to them. Job fairs and other events to serve.

more pool hours

Tracks/fitness trails

Traffic has increased

Increased population. Challenge for students to travel to campus.

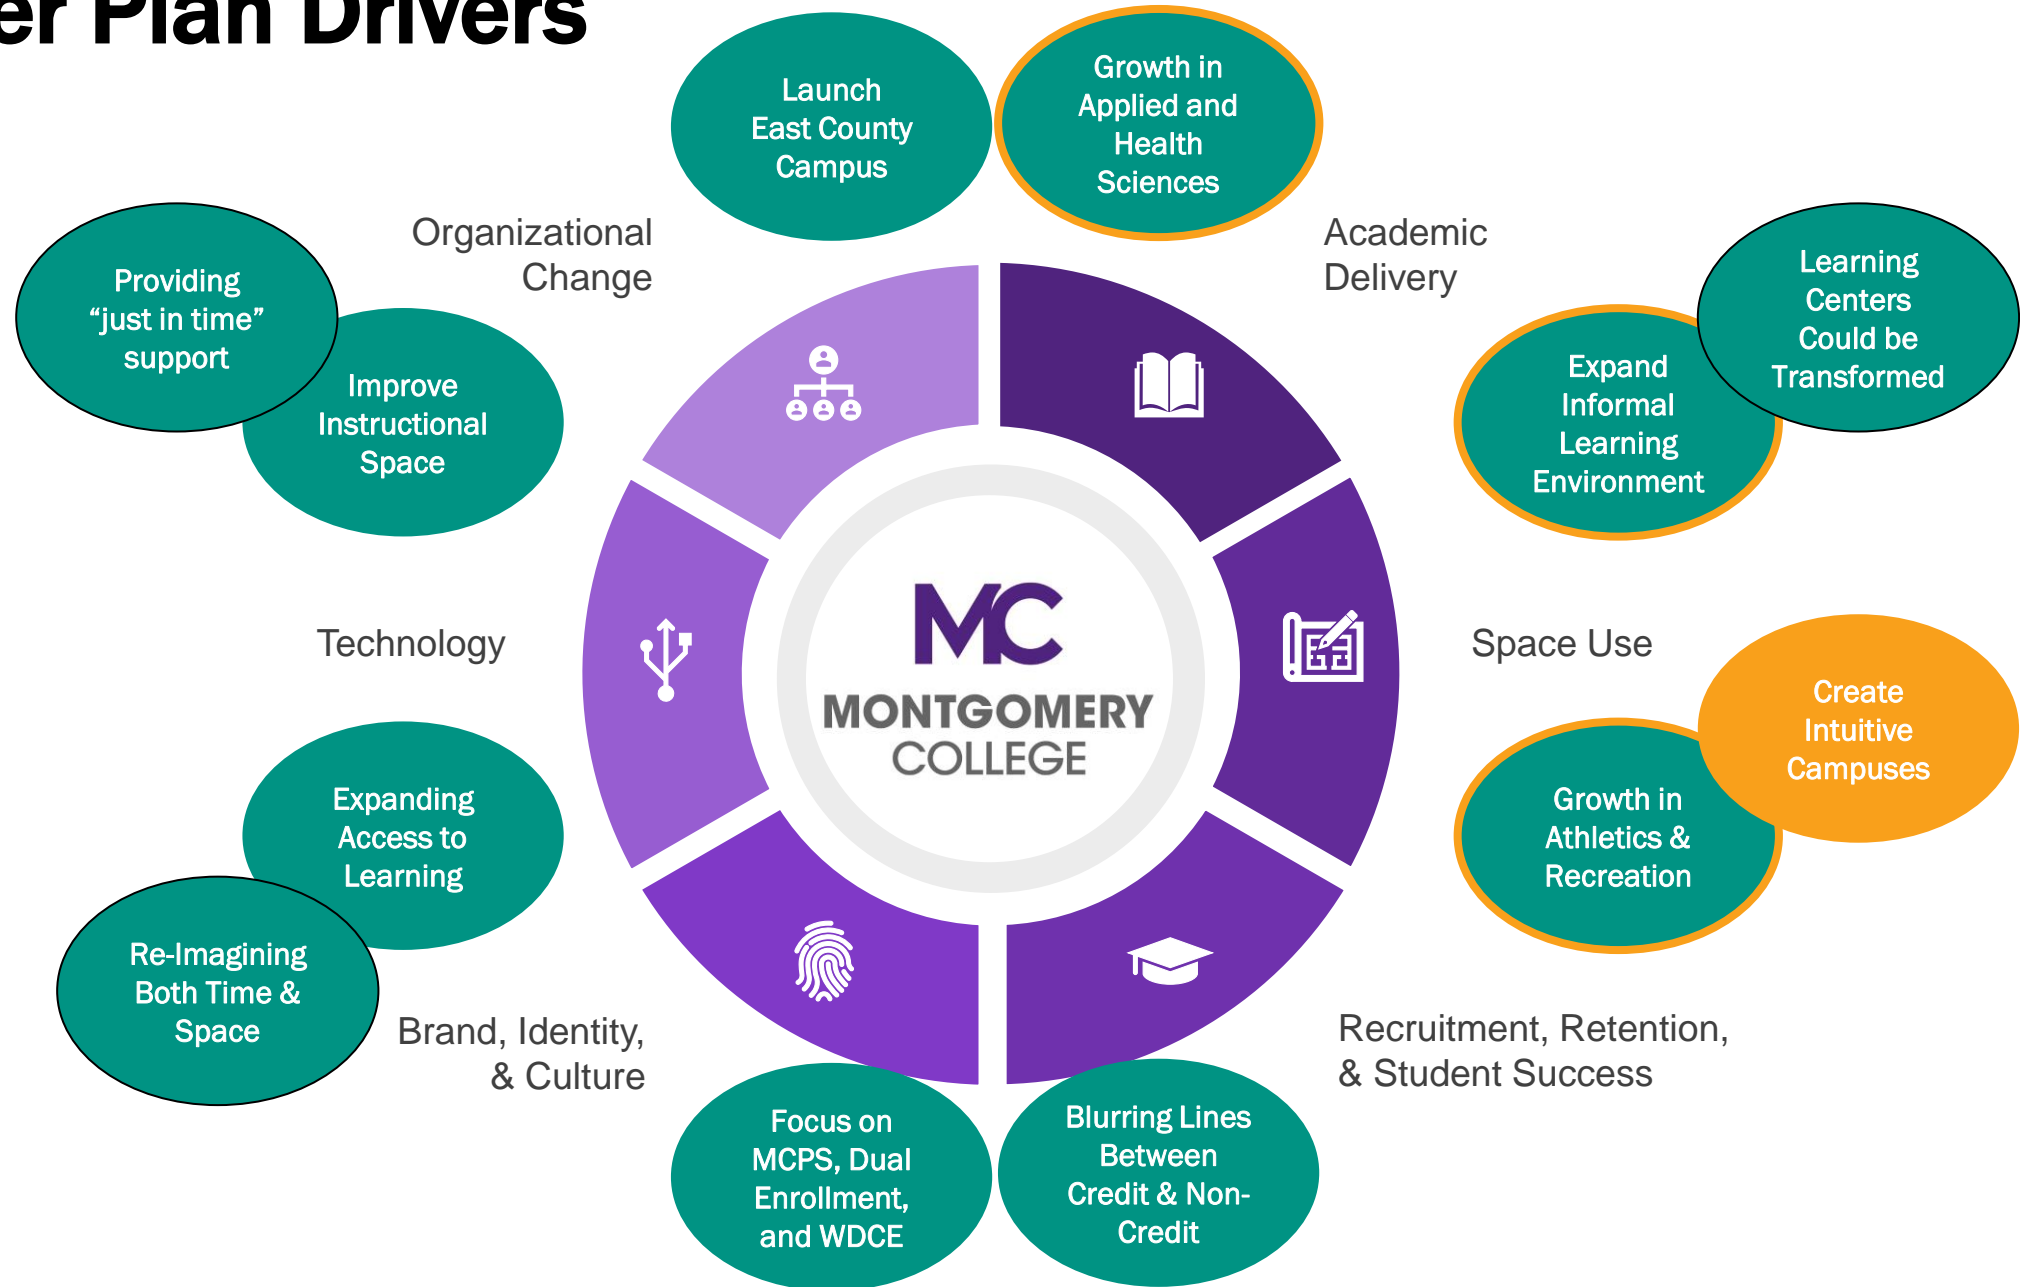

There's also an under-utilized parking lot owned by MCPS adjacent to the Rockville campus.

Increasing population, especially around the GT campus with new housing development.

Need for more "third spaces" and places to gather outside.

So much traffic on 355 near Rockville campus

Master Plan Drivers

East County Study

East Presence Could Fill Gap for Services Needed

East Montgomery County public high schools provide many services for their students and the community to be successful, but several key services are currently missing.

Innovation Incubator

- Sandbox model that allows for the design, implementation, and assessment of new ideas and programs
- Opportunity for students, businesses, and faculty to come together and innovate, build partnerships

Social Services Support

- Ensuring that community members have access to the services they need to be successful
- Co-locating services such as a library space or basic needs services, and providing staffing to then perform outreach and connect students to those services

Community Gathering and Empowerment

- Place-making; creating a welcoming culture that invites inclusivity, a sense of connection and belonging
- Leveraging and celebrating the cultural capital of East County residents, multi-generational spaces
- Creating a congregation space for the county

Technology Center

- Future-oriented, multi-use space that allows for the intentional design of virtual learning
- Faculty workshops that provide engaging online teaching strategies
- Serve as the “virtual hub” for coordination of all remote services

Stakeholders repeated that the East presence must be unique, and one of its key differentiation features could be addressing student and community needs, allowing for greater accessibility and successful outcomes.

Five Key Themes Emerged In Stakeholder Interviews

After conducting more than 25 interviews with Montgomery College stakeholders, several central topics continued to arise that are categorized in the themes below.

Holistic Student Support and Student Wellness

Mental Health Services
Student Basic Needs Assistance
Student Services

The campus presence must be mission-driven

Post-Pandemic Spacing and Student Needs

Student Services
New Communication Needs
In-Person Needs
Academic Core
Role of Virtual Environment

Evolving Purpose of New Presence and its Features

Career & Tech Education
Community Engagement Center
Partnership Pathways,
Education Pathways
Hub for Student Support Services

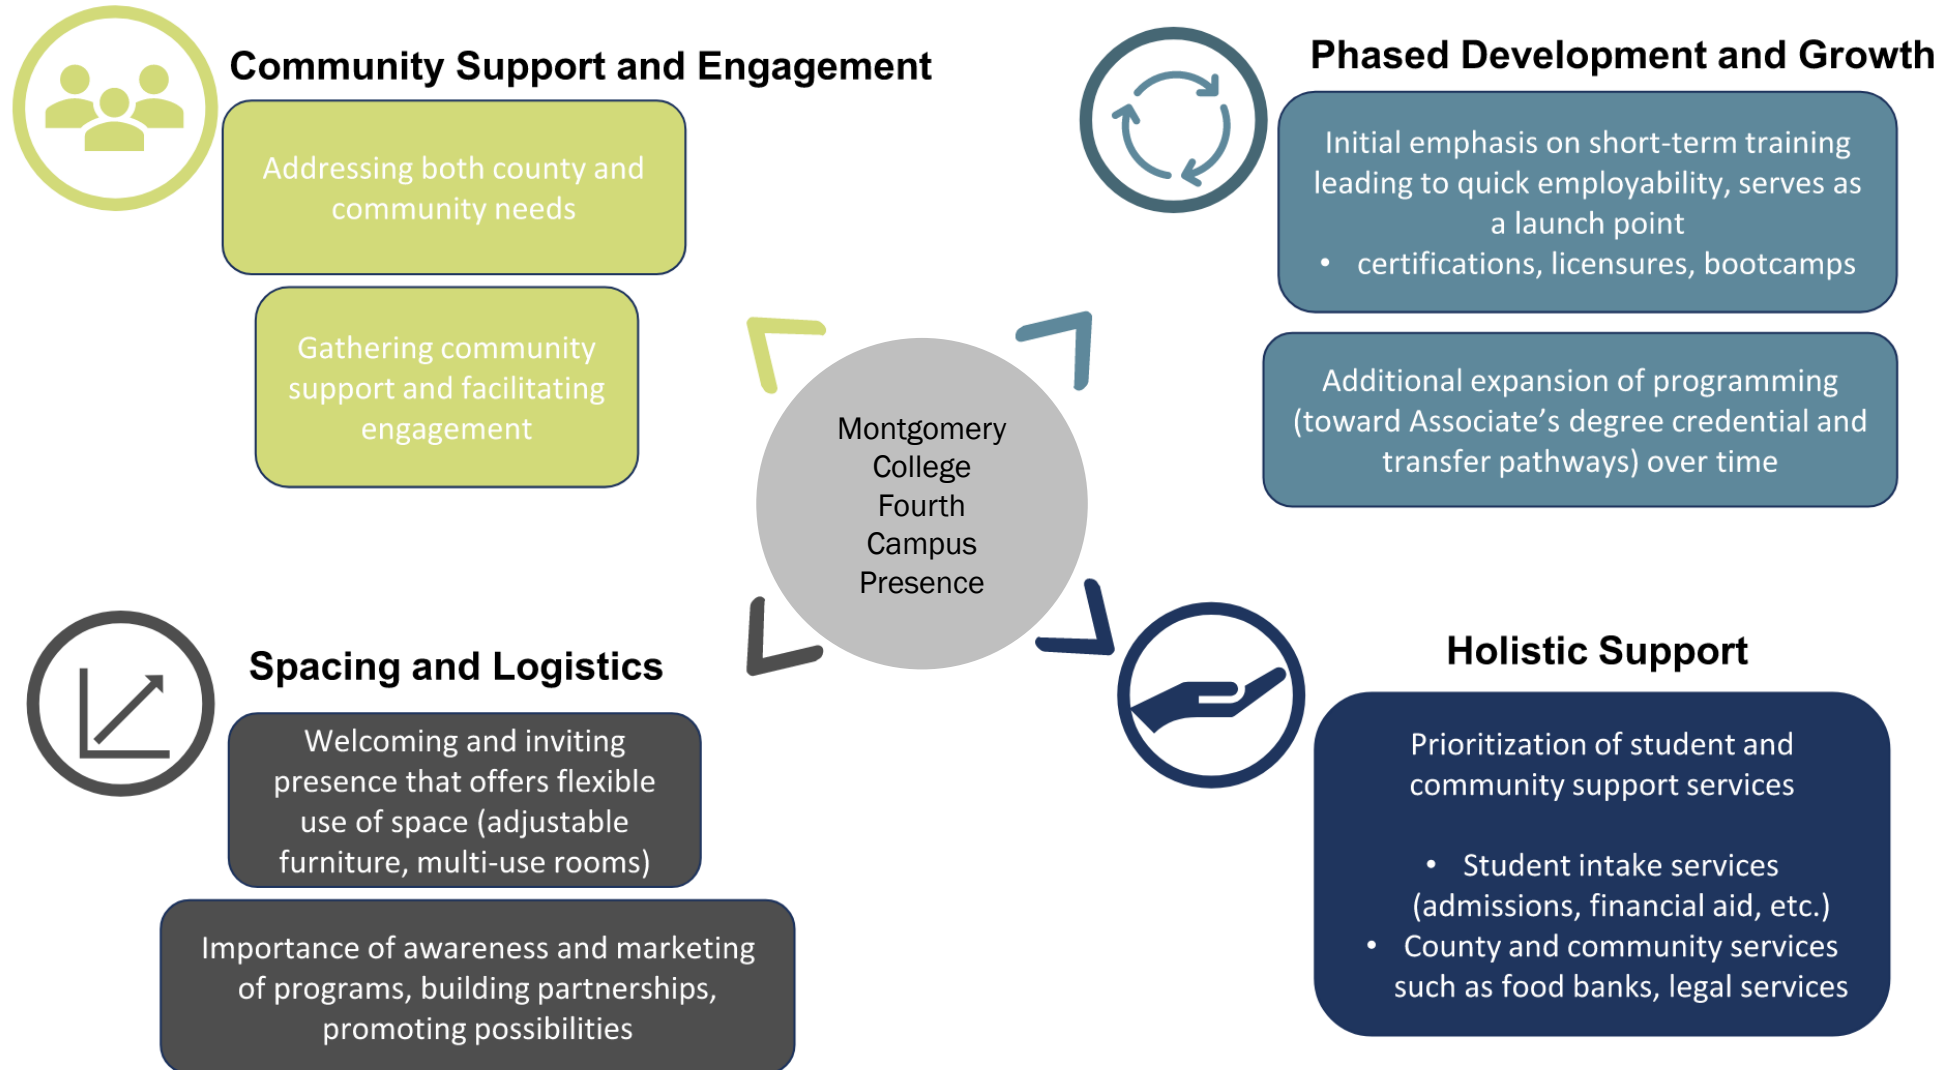

Infrastructure of Eastern Montgomery County Presents Several Challenges

Physical
Technological

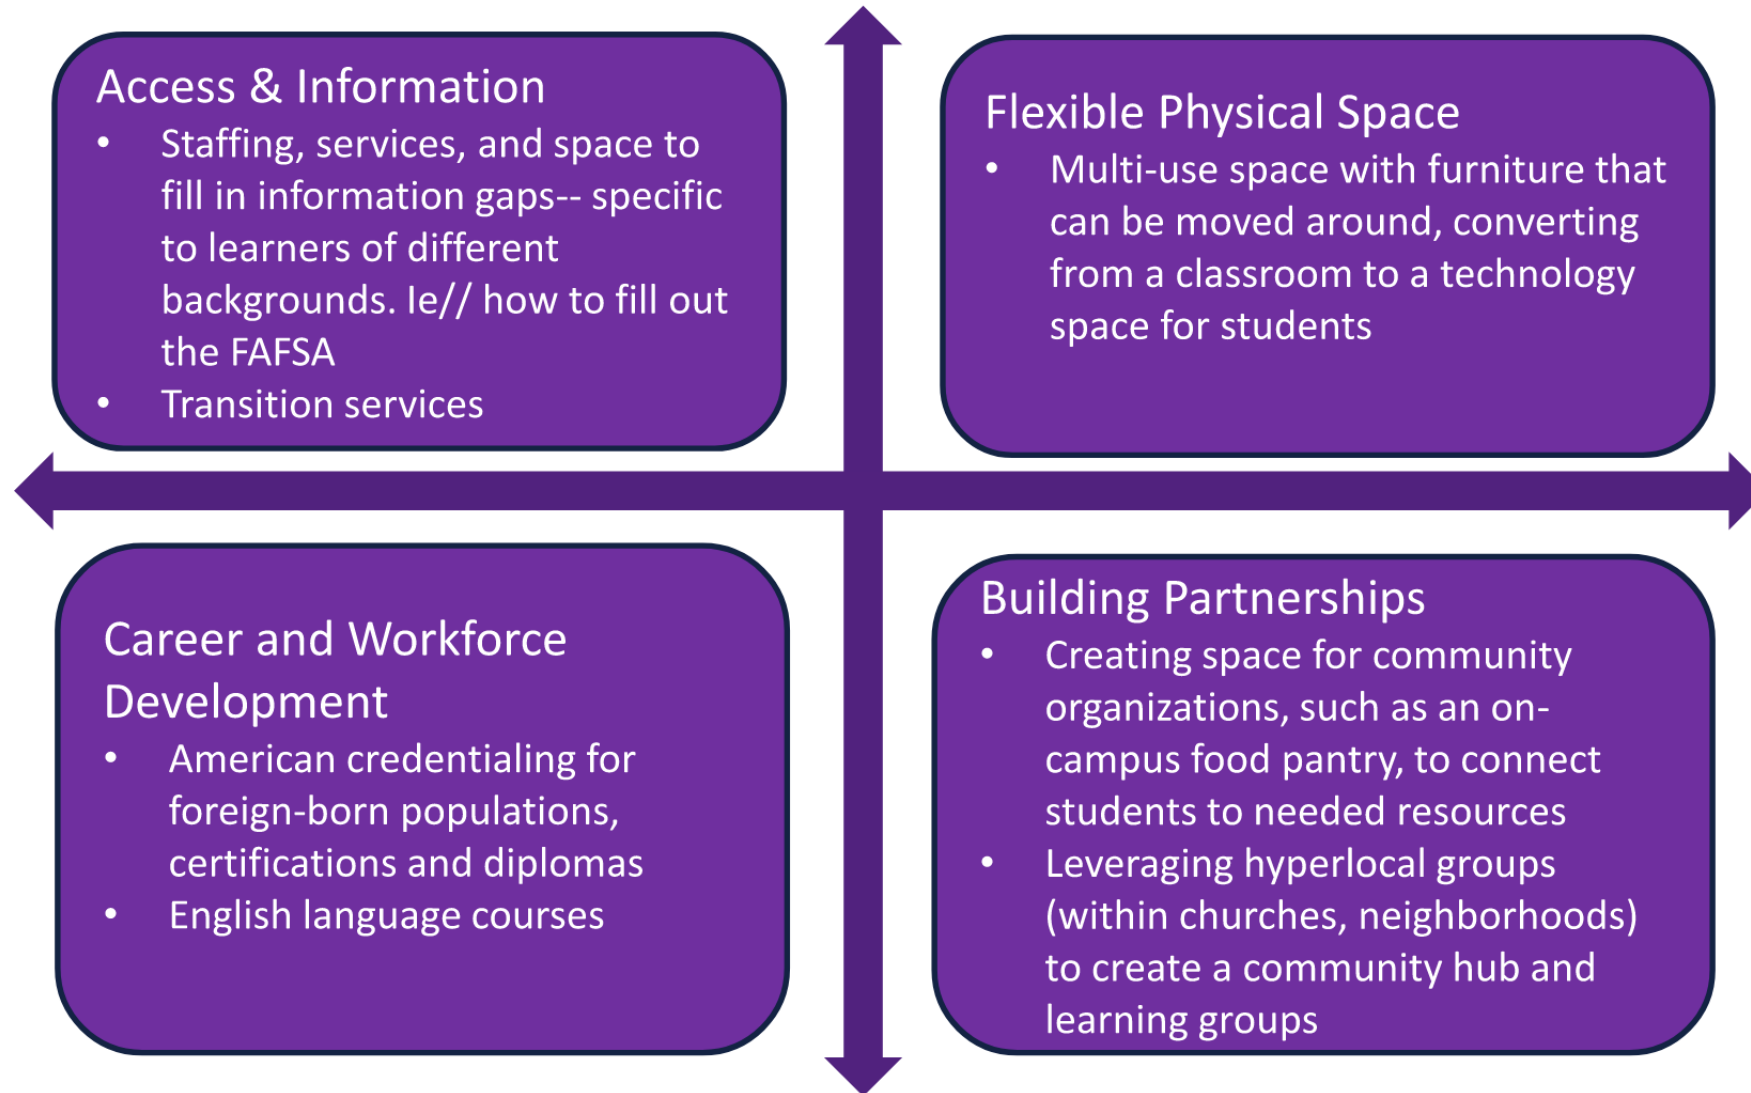

Qualitative Assessment: Academic Affairs Overview

Initially, Montgomery College's new fourth presence could offer career and technical education training programs (workforce development) and continue to expand its offerings over time.

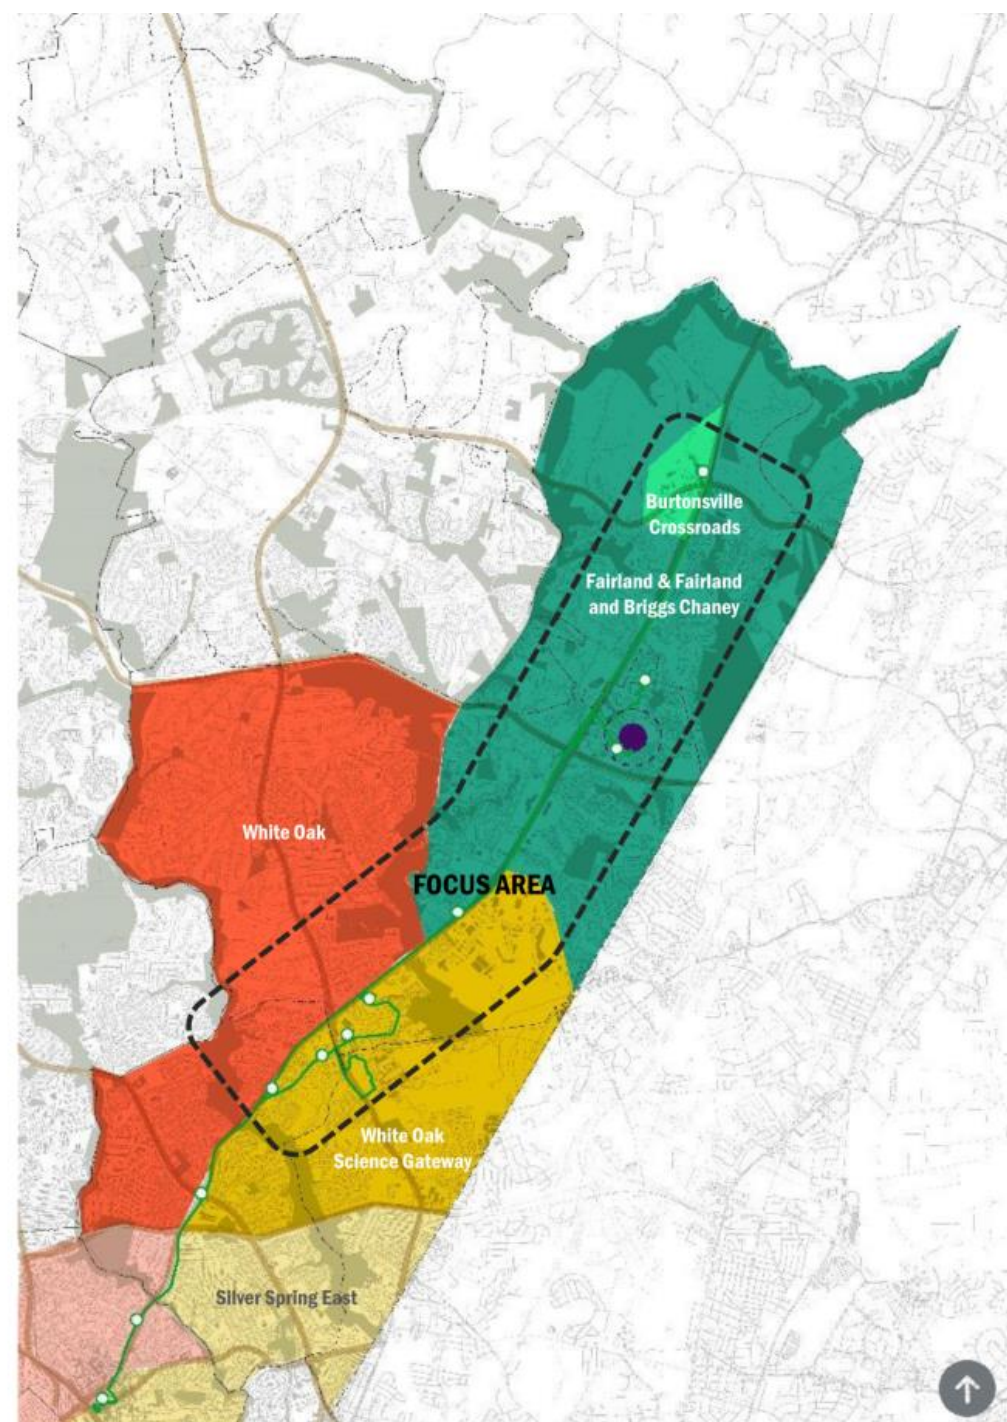

East County Community Focus Group Takeaways

Desired features of a Montgomery College campus presence in East County varied and include workforce training programs to holistic student support features.

Discussion

Overarching Planning Goals

- **Prioritize Student Success** – through expanded spaces in support student wellness, informal learning/study, dining and amenities, branding, and intuitive wayfinding.
- **Reinvent Existing Facilities** – through renovation and strategic interventions, right size classroom and lab spaces, create faculty hubs, repurpose under-utilized square footage.
- **Expand Access** – provide a touchdown for county services, non-profits and businesses, enhance options for parents and consider both physical and virtual environments.
- **Plan Prudently** – each campus has land use constraints, limiting future development. Project development should consider maximizing future development potential while continuing to create activated, green campuses.

East County Campus Presence

- What aspects of the College could be reinforced in the East County?
- What could be unique to the East County location?
- What is the biggest impact a new location could have on the community?
